

## COMPANY OVERVIEW

As a USA-based designer and manufacturer, we specialize in producing high-quality, innovative tactical nylon gear that enhances functionality and safety for users of long guns and pistols. Originally launched by Javier Echevarria under the "Sling-System™" brand in 1997, our slings have become a trusted choice for military and law enforcement personnel. Our product line includes 1, 2, and 3-point slings, with our latest patented EXO™ one-point sling standing out for its unique design, addressing and eliminating 90% of the common issues found in traditional one-point slings.

**Sling Guru, Inc.** is a premier provider of high-quality, durable 1, 2, and 3-point tactical slings designed to enhance the functionality, comfort, and safety of military, law enforcement, and defense professionals. Our signature Sling-System™ slings, trusted by numerous federal and law enforcement agencies, are crafted with precision to ensure compatibility across various firearm platforms and field applications. With a focus on innovation, our patented EXO™ one-point sling addresses and eliminates common issues found in standard models, offering a unique and effective solution for tactical use. Partnering with top-tier manufacturers, we have the capacity for high-volume production and can accommodate custom designs upon request. We also provide specialized training for trainers and operators, ensuring users feel confident and secure in the field.

## CORE COMPETENCIES

- Manufactures Slings
- Multiple Sling Designs
- Universally Fits all Long Guns
- Ambidextrous
- Berry Compliant
- EXO™ Single Point Slings
- Supports One Point Slings for Executive Protection or Concealed Carry
- Sling Training

## DIFFERENTIATORS

**Sling Guru, Inc.** sets itself apart with its groundbreaking Sling-System™ and patented EXO™ designs. The Sling-System™ is the first truly universal, ambidextrous tactical sling, designed for use on any long gun while prioritizing comfort and durability. The EXO™ one-point sling introduces a unique feature by resting naturally at the user's side when released, minimizing interference with movement and enhancing quick accessibility. Ideal for executive protection, it integrates seamlessly with specialized harnesses, carriers, and backpacks, offering hands-free support for additional tactical gear like night scopes, binoculars, and cameras. These advanced features establish our slings as versatile, multifunctional tools designed to meet the demands of professional operators.
